Skilled Software Engineer with a strong background in web development and a deep understanding of both frontend and backend technologies. Expert in creating dynamic and visually appealing web interfaces using React.js, HTML, and CSS. Experienced in server-side programming with Node.js and Express.js, and adept at managing the complete web development process, from conceptualization to deployment. Committed to writing clean, maintainable code that adheres to industry standards. Proven ability to work with professional developers to manage large, complex projects for corporate clients using an Agile methodology approach. Looking for opportunities to leverage these skills to create impactful web solutions.
